ABOUT ME

Hi, I'm **Sitaram Prajapati** , a **Frontend Web Developer** who loves building clean, responsive, and user-friendly websites using React.js. I'm skilled in technologies like **HTML, CSS, JavaScript, React.js, Tailwind CSS, Bootstrap, and Git**. I also have experience working with APIs, handling responsive design, and using tools like VS Code, Figma, and Chrome DevTools.

I enjoy turning creative ideas into real web experiences that look great and work smoothly on all devices. I focus on writing clean, efficient code and designing user-friendly, visually appealing interfaces. For me, web development is about solving problems and making the web better for everyone.

EDUCATION

INDUS UNIVERSITY AHMEDABAD

2022-2026 (SEM-6th Ongoing)
Bachelor of Information Technology
CGPA: 9.5 (up to Sem-5)

PIONEER SCHOOL OF SCIENCE

2020 - May 2022 (GSEB)
HSC (12th Science - PCM Stream)
Percentage : 69%

K.B. VAKIL SECONDARY SCHOOL

2010 - March - 2020
SSC (10th GSEB) Percentage : 80%

TECHNICAL SKILLS

- Current : React JS
- Core : HTML5 , CSS3 , JS ES6
- UI Frameworks :
Bootstrap, Tailwind
- Github
- Mongo Db :Basic knowledge of No-sql database.
- jQuery • Redux-Toolkit

SOFT SKILLS

- Problem Solving
- Communication
- Time management
- Teamwork & Collaboration

ACHIEVEMENT

- Indus Hackathon 2025
- Website UI/UX Design
- Current in R&W Multimedia
- Flutter indus university workshop Certification
- HTML5 Bootcamp

PROJECT WORK

RESTORAN WEBSITE

Code: ([GITHUB](#))

Live Demo : ([Netlify](#))

- Developed a fully responsive, SEO-friendly restaurant website using HTML, CSS, JavaScript, and jQuery with semantic HTML5 tags. Features include a 360° animated dish, custom content slider, and sections like menu, reviews, chef profiles, and table booking. Deployed on Netlify with smooth animations and media queries.
- Key Skills:** HTML, CSS, JavaScript, jQuery, Responsive Web Design, Flexbox, Media Queries, UI/UX

ADMIN DASHBOARD (VIHO THEME)

Code: ([GITHUB](#))

Live Demo : ([Netlify](#))

- Developed a fully responsive admin panel using HTML, CSS, JavaScript, and jQuery with no frameworks. Includes a two-panel layout with an accordion-based user profile section and a dynamic dashboard featuring interactive graphs, histograms, tables, and particle.js effects. Integrated component-level actions (e.g., show code, copy code, theme change, full-screen view) for enhanced interactivity. Used media queries for full device responsiveness and implemented chart.js for rich data visualization.
- Key Skills:** HTML, CSS, JavaScript, jQuery, Media Queries, UI/UX

E-BOOK SELLING WEBSITE

Code: ([GITHUB](#))

Live Demo : ([Netlify](#))

- Built a responsive online book store using HTML, CSS, JavaScript, and Bootstrap with an engaging and modern UI. Showcased books across multiple animated sliders featuring real-time likes, star ratings, and dynamic pricing. Integrated smooth transitions and interactive elements for an enhanced shopping experience. Fully optimized for mobile, tablet, and desktop using Bootstrap's grid and responsive utilities.
- Key Skills:** HTML, CSS, JavaScript, jQuery, Bootstrap, UI/UX

REACT PASSWORD GENERATOR

- Built a dynamic password generator using React with **useState, useEffect, useCallback, and useRef hooks**. Users can customize password length, include numbers/special characters, and copy the generated password with visual feedback using the useRef hook.

EXPERIENCE

Frontend Development Task (Interview-Based Project)

Code: ([GITHUB](#))

Live Demo : ([Netlify](#))

As part of an interview process, I was given a real-world frontend challenge based on a Figma design. I successfully completed the task by building a fully responsive and pixel-perfect frontend interface. This experience helped me prove my technical abilities under pressure and handle critical UI requirements with confidence.

✓Cracked the interview by completing a complex frontend task within the deadline.

✓Converted a detailed Figma design into a functional, responsive web layout.
